

Performance Measures Language for 2017 FTIP Amendments

The 2012 federal transportation authorization legislation, 'Moving Ahead for Progress in the 21st Century' (MAP-21) established new requirements for performance management and reporting to ensure the most efficient investment of Federal transportation funds. To incorporate the new federal performance requirements into the Federal Transportation Improvement Program (FTIP), the Southern California Association of Governments (SCAG) is required to show (1) that the FTIP "makes progress towards achieving the region's performance targets" and (2) that the FTIP includes, "to the maximum extent practicable, a description of the anticipated effect of the FTIP towards achieving the performance targets."

The projects contained within Amendment No. 22 have been developed in accordance with the applicable provisions and requirements of 23 CFR Part 450 and are expected to support the achievement of these targets. These targets will be achieved through the implementation of investment priorities through the programming of transportation projects in the 2017 FTIP, this FTIP Amendment, and subsequent FTIP Amendments and Administrative Modifications.
