

Annual Listing of Obligated Projects

Federal requirement §450.332 stipulates that on an annual bases, no later than 90 calendar days following the end of the program year, the State, public transportation operator (s), and the Metropolitan Planning Organization (MPO) shall cooperatively develop a listing of projects for which funds under 23 U.S.C or 49 U.S.C. Chapter 53 were obligated in the preceding program year.

SCAG in consultation and coordination with the State and County Transportation Commissions (CTC's) works to develop the annual listing of obligated projects. The CTC's working with the project sponsors and transit operators within their respective jurisdiction, update project obligation information through use of the SCAG FTIP database. SCAG compiles this information and produces the annual listing of projects utilizing the SCAG FTIP Database. Some of these projects may have additional federal funds programmed in future fiscal years. This information may be found in the current federally approved Federal Transportation Improvement Program which is located on the following link
<http://scag.ca.gov/FTIP>
